

# Case Study: Mustang Restoration Component

## **Customer Profile:**

- Dale Thompson Collection
- Specializes in Mustang restoration

## **Customer Needs:**

- Needed replacement knobs for Air Handler and Choke.
- Had rare NOS knobs; needed them stamped with an “A” to match the original knobs.
- Challenge: knobs have deep concave surface; needed to be stamped in the center.

## **HSSC Solution:**

- Created a die to match the curve and contour of the knob.
- Stamped all knobs with no scrap
- Successfully matched the look of the original part
