

## Introducing the New Invitation Master

A commercial-grade Foil Stamping Press manufactured from the highest quality materials and finished in royal blue with black fixtures to form an attractive addition to your shop. Barely tipping the scales at 75 lbs with a footprint of less than 1.5 ft, the Invitation Master will easily fit in the smallest of business spaces, storefronts or home offices! Having an imprint area of 8" x 5" and one ton of pressure, this is the ideal workhorse for stationery artisans who need a professional machine at a lower cost. Built around the need to execute full-sized invitations and announcements fast, easy and with one stroke. The New Invitation Master was designed to make multi-line invitation impressions on paper and cardstock of any texture or weight. The platen set-up, auto foil feed and accurate heat control on this machine allows for easy loading and fast centering of all your stationery jobs. The Invitation Master provides the clean, crisp, professional results that your customers want and deserve.
